Work Experience

Caba Innovatives web institute — south-extension New Delhi-110049

Aug 2023 - Present

- Conducted training sessions on HTML, CSS, JavaScript, React, and Redux, helping students build strong front-end development skills.
- Provided hands-on assistance and troubleshooting support to students, addressing technical challenges and ensuring successful project completion.
- Evaluated student progress and provided feedback to improve their coding proficiency.

Projects

E-COMMERCE WEBSITE USING REACT

Features:

Developed a feature-rich E-Commerce application with a robust admin panel and Firebase integration. Key features include secure user authentication, dynamic product management, responsive UI with React and Tailwind CSS, and a streamlined cart and checkout process.

OBYS WEBSITE CLONE ([HTTPS://OBYS.AGENCY](https://obys.agency))

Features:

The Obys Agency website uses several modern web technologies and design tools. Based on the visual design and interactive elements, it likely incorporates:

- Recreated the Obys Agency website using HTML, CSS, and JavaScript.
- Implemented animations with GSAP to enhance user experience.
- Achieved a responsive and visually engaging design

RANDOM PASSWORD GENERATOR

Features:

- Developed a React-based app to generate strong, customizable passwords.
- Included features to specify password length and copy to clipboard.
- Implemented functionality to clear copied passwords for added security.

Certificates

- Chegg India Private Limited Assignment Certificate **24 Dec 2023**
- Participate in a React Hackathon which is conducted by Coding ott youtube Channel **18 Aug 2024**
